

Lindani Buthelezi

In spite of the appalling events which have taken place recently leading to mindless destruction of our beautiful learning institutions the students supported by HABandBF continue to work hard, avoid trouble and aspire to graduating and entering into a meaningful career which will enable them to lift their families out of the poverty circle and contribute to the economic recover of the country. I was recently very pleased to hear from Lindani Buthelezi, who graduated with Hons in [B.Com](#) Supply Chain Management in 2010 when he started working for Rainbow Chickens. He became Demand Manager for Bacardi in April after completing his self funded MBA in 2020.
